1. Nature of operations and going concern

Geodex Minerals Ltd. (the "Company") was incorporated under the British Columbia Business Corporations Act. The Company's head office is located at 365 Bay Street, Suite 400, Toronto, Ontario, M5H 2V1 and it is listed on the TSX-Venture ("TSXV") and Frankfurt exchanges under the symbol GXM and G2W, respectively.

On February 9, 2016, the Company completed a share consolidation of its common shares of one (1) post-consolidation common share for every ten (10) pre-consolidation common shares (the "Share Consolidation"). As part of the Share Consolidation, the stock options and warrants were also consolidated and the exercise price adjusted to reflect the consolidation. The Share Consolidation has been reflected retrospectively in these financial statements and all applicable references to the number of shares, warrants and stock options and their strike price and per share information have been restated.

The Company has been in the business of acquiring exploration and evaluation assets and in June 2015, the Company initiated the strategy of becoming an integrated metal trading and resources company. On July 22, 2015, the Company signed a non-binding letter of intent ("LOI") with the shareholders of Goldway S.R.L. ("Goldway"), in order for the Company to acquire 100% of the capital stock of Goldway. On January 22, 2016, the Company revised the terms of the acquisition purchase price.

As at June 30, 2017, the Company has a working capital deficit of \$1,083,043 (March 31, 2017 – \$903,915) and an accumulated deficit of \$36,699,315 (March 31, 2017 – \$36,502,187). The Company expects to incur further losses in the development of its business. These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These unaudited condensed interim financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and thus be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of August 29, 2017, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended March 31, 2017. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending March 31, 2018 could result in restatement of these unaudited condensed interim financial statements.

2. Significant accounting policies (continued)

New standards and interpretations not yet adopted

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for accounting periods beginning on or after April 1, 2017. The following have not yet been adopted by the Company and are being evaluated to determine their impact.

IFRS 7: Amended to require additional disclosures on transition from IAS 39 and IFRS 9, effective for annual periods beginning on or after January 1, 2018.

IFRS 9: New standard that replaced IAS 39 for classification and measurement outlines the requirements for the recognition and measurement of financial assets, financial liabilities, and some contracts to buy or sell non-financial items. IFRS 9 is effective for annual periods beginning on or after January 1, 2018.

IFRS 15: New standard to establish principles for reporting the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity's contracts with customers. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

IFRS 16: New standard introducing a single accounting model for lessors and for all leases with a term of more than 12 months, unless the underlying asset is of low value. The standard is effective for annual periods beginning on or after January 1, 2019, with early adoption permitted.

11. Financial instruments and risk management

The fair value of cash and marketable securities are measured based on level 1 of the fair value hierarchy. The fair values of receivable, accounts payable and accrued liabilities and loan from related party approximate their fair value because of the short-term nature of these instruments.

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and receivables. The Company places its cash in major financial institutions. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As of June 30, 2017, the Company had a cash balance of \$145,028 to settle current liabilities of \$1,273,192. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade demand investments issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Foreign currency risk

The Company is nominally exposed to foreign currency risk on fluctuations related to assets and liabilities that are denominated in US Dollars.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's loss due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.

11. Financial instruments and risk management (continued)

Sensitivity analysis

The Company holds marketable securities which would give rise to exposure to price risk. Sensitivity to a plus or minus 10% change in the market price of the marketable securities would affect the loss and comprehensive loss by approximately \$120.

Fair value hierarchy

Receivables have been classified as loans and receivables and are measured at amortized cost. Accounts payable and accrued liabilities and loan from related party are classified as other financial liabilities and are measured at amortized cost. Cash and marketable securities are classified as fair value through profit and loss ("FVTPL") and carried at fair value.

IFRS 7 - Financial Instruments: Disclosures requires classification of fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The levels of the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and,

Level 3: Inputs for the asset or liability that are not based on observable market data.

As at June 30, 2017 and March 31, 2017, none of the Company's financial instruments were held at fair value other than cash and marketable securities which were classified as level 1 financial instruments.

12. Capital management

The Company defines capital that it manages as shareholders' deficiency, consisting of share capital, reserve and deficit.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital restrictions.

There was no change in management's approach to capital management during the period ended June 30, 2017.

13. Segmented information

The Company operates in one reporting segment, being the acquisition and exploration of exploration and evaluation assets in Canada.

14. Subsequent events

(i) On July 17, 2017, 335,000 warrants expired unexercised.

(ii) On August 10, 2017, the Company completed the acquisition (the "Acquisition") of all of the outstanding shares of Goldway SRL ("Goldway") in exchange for (i) the issuance by the Company to Goldway's shareholders of a total of 5,000,000 common shares; and (ii) US\$100,000, payable in cash, pursuant to a share exchange agreement (the "Share Exchange Agreement"). As a result of the Acquisition, Goldway has become a wholly-owned subsidiary of the Company, and will continue to be active in the gold and metals trading business in Bolivia.

(iii) Concurrent with the closing of the Acquisition, the Company has completed its previously announced non-brokered private placement ("Concurrent Offering") through the issuance of 2,042 units (the "Units") at a price of C\$900 per Unit for aggregate gross proceeds of C\$1,837,800. Each Unit is comprised of: (i) one promissory note in the principal amount of C\$1,000; (ii) 1,500 common shares; and (iii) 1,500 common share purchase warrants. As at June 30, 2017, the Company received \$143,422 for shares to be issued in the Concurrent Offering which was included in shares to be issued on the unaudited condensed interim statements of financial position as at June 30, 2017.

(iv) Concurrent with the closing of the Acquisition, the Company has also issued an aggregate of 3,860,593 common shares in settlement of an aggregate of \$386,059.30 of outstanding indebtedness at a price of \$0.10 per common share with arm's length and non-arm's length parties (the "Concurrent Debt Settlement"). Of this amount, \$2,616,411 of the indebtedness relating to the provision of management and director consulting services and fees for an aggregate of 2,616,411 common shares, were issued to Mr. Gordon Glenn, through a company owned and controlled by him, and Mr. Chris Irwin, directors and officers of the Company.
